

Bureau of Land Management, Interior

§4110.2-2

terms and conditions in effect at the time of acquisition by the Bureau of Land Management, and are not subject to the requirements of §4110.1.

[60 FR 9962, Feb. 22, 1995]

§4110.2 Grazing preference.

§4110.2-1 Base property.

(a) The authorized officer shall find land or water owned or controlled by an applicant to be base property (see §4100.0-5) if:

(1) It is capable of serving as a base of operation for livestock use of public lands within a grazing district; or

(2) It is contiguous land, or, when no applicant owns or controls contiguous land, noncontiguous land that is capable of being used in conjunction with a livestock operation which would utilize public lands outside a grazing district.

(b) After appropriate consultation, cooperation, and coordination, the authorized officer shall specify the length of time for which land base property shall be capable of supporting authorized livestock during the year, relative to the multiple use management objective of the public lands.

(c) An applicant shall provide a legal description, or plat, of the base property and shall certify to the authorized officer that this base property meets the requirements under paragraphs (a) and (b) of this section.

(d) A permittee's or lessee's interest in water previously recognized as base property on public land shall be deemed sufficient in meeting the requirement that the applicant control base property. Where such waters become unusable and are replaced by newly constructed or reconstructed water developments that are the subject of a range improvement permit or cooperative range improvement agreement, the permittee's or lessee's interest in the replacement water shall be deemed sufficient in meeting the requirement that the applicant control base property.

(e) If a permittee or lessee loses ownership or control of all or part of his/her base property, the permit or lease, to the extent it was based upon such lost property, shall terminate immediately without further notice from the authorized officer. However, if, prior to

losing ownership or control of the base property, the permittee or lessee requests, in writing, that the permit or lease be extended to the end of the grazing season or grazing year, the termination date may be extended as determined by the authorized officer after consultation with the new owner. When a permit or lease terminates because of a loss of ownership or control of a base property, the grazing preference shall remain with the base property and be available through application and transfer procedures at 43 CFR 4110.2-3, to the new owner or person in control of that base property.

(f) Applicants who own or control base property contiguous to or cornering upon public land outside a grazing district where such public land consists of an isolated or disconnected tract embracing 760 acres or less shall, for a period of 90 days after the tract has been offered for lease, have a preference right to lease the whole tract.

§4110.2-2 Specifying grazing preference.

(a) All grazing permits and grazing leases will specify grazing preference, except for permits and leases for designated ephemeral rangelands, where BLM authorizes livestock use based upon forage availability, or designated annual rangelands. Preference includes active use and any suspended use. Active use is based on the amount of forage available for livestock grazing as established in the land use plan, activity plan, or decision of the authorized officer under §4110.3-3, except, in the case of designated ephemeral or annual rangelands, a land use plan or activity plan may alternatively prescribe vegetation standards to be met in the use of such rangelands.

(b) The grazing preference specified is attached to the base property supporting the grazing permit or grazing lease.

(c) The animal unit months of grazing preference are attached to:

(1) The acreage of land base property on a pro rata basis, or

§4110.2-3

43 CFR Ch. II (10-1-08 Edition)

(2) Water base property on the basis of livestock forage production within the service area of the water.

§4110.2-3 Transfer of grazing preference.

(a) Transfers of grazing preference in whole or in part are subject to the following requirements:

(1) The transferee shall meet all qualifications and requirements of §§4110.1, 4110.2-1, and 4110.2-2.

(2) The transfer applications under paragraphs (b) and (c) of this section shall evidence assignment of interest and obligation in range improvements authorized on public lands under §4120.3 and maintained in conjunction with the transferred preference (see §4120.3-5). The terms and conditions of the cooperative range improvement agreements and range improvement permits are binding on the transferee.

(3) The transferee shall accept the terms and conditions of the terminating grazing permit or lease (see §4130.2) with such modifications as he may request which are approved by the authorized officer or with such modifications as may be required by the authorized officer.

(4) The transferee shall file an application for a grazing permit or lease to the extent of the transferred preference simultaneously with filing a transfer application under paragraph (b) or (c) of this section.

(b) If base property is sold or leased, the transferee shall within 90 days of the date of sale or lease file with BLM a properly executed transfer application showing the base property and the grazing preference, in animal unit months, attached to that base property.

(c) If a grazing preference is being transferred from one base property to another base property, the transferor shall own or control the base property from which the grazing preference is being transferred and file with the authorized officer a properly completed transfer application for approval. No transfer will be allowed without the written consent of the owner(s), and any person or entity holding an encumbrance of the base property from which the transfer is to be made.

(d) At the date of approval of a transfer, the existing grazing permit or lease shall terminate automatically and without notice to the extent of the transfer.

(e) If an unqualified transferee acquires rights in base property through operation of law or testamentary disposition, such transfer will not affect the grazing preference or any outstanding grazing permit or lease, or preclude the issuance or renewal of a grazing permit or lease based on such property for a period of 2 years after the transfer. However, such a transferee shall qualify under paragraph (a) of this section within the 2-year period or the grazing preference shall be subject to cancellation. The authorized officer may grant extensions of the 2-year period where there are delays solely attributable to probate proceedings.

(f) Transfers shall be for a period of not less than 3 years unless a shorter term is determined by the authorized officer to be consistent with management and resource condition objectives.

(g) Failure of either the transferee or the transferor to comply with the regulations of this section may result in rejection of the transfer application or cancellation of grazing preference.

§4110.2-4 Allotments.

After consultation, cooperation, and coordination with the affected grazing permittees or lessees and the state having lands or responsibility for managing resources within the area, the authorized officer may designate and adjust grazing allotment boundaries. The authorized officer may combine or divide allotments, through an agreement or by decision, when necessary for the proper and efficient management of public rangelands.

§4110.3 Changes in grazing preference.

(a) The authorized officer will periodically review the grazing preference
